The guitar tab is written for a guitar in D major with a capo at the 2nd fret. It consists of 18 measures. The first section (measures 1-8) is marked with a boxed 'A' and features a D chord. The second section (measures 9-16) is marked with a boxed 'B' and features an A chord. A key signature change to G major is indicated at measure 13. The tab includes various techniques such as hammer-ons (H), pull-offs (Po), and triplets. Two first endings are provided for the final two measures (17-18).

There are varied versions out there. In some the A part resolves to a D at the last measure. In some the B part has extra chords. In some the B part does not resolve to the D. In some it does not resolve the first but does the second. I think this is closest to the Uncle Charlie Osborne version which is often cited as the source.

In the A part measure three is a notier variation of measure 1. Use either.

Likewise, there are options for getting to the fifth fret note in measures 1, 3 and 5. A few are shown but option include: 2-3 hammer-on, a slide, Galax lick, 2 pull-off to 0, or just a 2.
